SAMPLE WORK

East–West Oval Engagement Ring

Light Through the Mesa

PRESENTATION SHEET · THREE VIEWS

Oval colorless diamond, set east–west
Hidden halo · 18k yellow gold knife-edge band

I Three-quarter · the stone, the shoulders and the knife edge

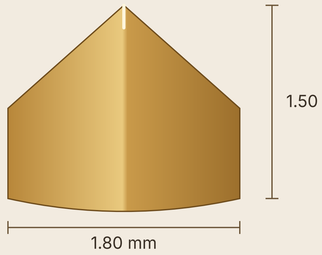

II Profile · the mesa window, light behind the stone

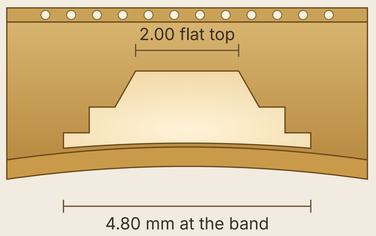

III Plan · east–west, the halo hidden below

THE BAND

A knife edge in section: two polished facets meeting in one sharp ridge that carries a single line of light around the finger.

THE MESA

A flat-topped mesa pierced clean through both gallery panels. The opening is empty: the warmth in it is daylight, passing behind the diamond.

SPECIFICATION

CENTER	Oval brilliant diamond, colorless, 8.00 × 6.00 mm, about 1.10 ct, east–west in four claws
HALO	Hidden: 14 round diamonds, Ø0.90 mm, on a rail beneath the girdle
METAL	18k yellow gold throughout
BAND	Knife edge, 1.80 mm wide, high polish
PANELS	Fine satin, mesa pierced through both

SAMPLE WORK Invented commission for a portfolio page. Renders are presentation views; dimensions are governed by technical drawing LTM-01.
