

A SOFT SLEEP TRACK

Start here

Your soft sleep track, with the cover now baked into it. Open it in any music player and the artwork shows as the album art — one file, cover on it, nothing to watch. The sound is untouched: the same three minutes of warm pads over a low, gentle drone, one quiet level from first second to last, fading softly to silence. Play it low tonight and let it carry you off.

What is in the kit

1 **Soft Sleep Drift — an ambient track to fall asleep to (cover now on the track)**

(open this first)

`song/soft-sleep-drift.mp3`

Plays in any music player.

Play it low and let it run — three minutes of warm pads that never spike, fading gently to quiet.
