

Still Water — lyrics

Slow downtempo chillout. Soft intimate female lead, reverb-soft and close, never belted. Warm Rhodes/Wurlitzer, tape haze, ambient-soul / lo-fi warmth. ~70–85 bpm feel. ~3 minutes. Present-tense, restorative — a track to decompress to.

[Intro] *(soft hums, Rhodes and air)*

[Verse 1] Lay the day down where it lands
Let it settle, let it soften in your hands
Nothing owed here, nothing due
Just the quiet coming back to you

[Chorus] Breathe in slow, let it go
Everything is holding, moving low
Still water, still water
Nowhere else you need to be right now

[Verse 2] Warm light falling through the room
Dust and gold, the afternoon
Set it down, the weight you carry
Nothing here is in a hurry

[Chorus] Breathe in slow, let it go
Everything is holding, moving low
Still water, still water
Nowhere else you need to be right now

[Bridge] Soft, so soft the evening comes
Feel it loosen, feel it hum
You are here, you are enough
Rest your heart, you've done enough

[Outro] *(hums fading into air)* Still water... still water...
Nowhere else you need to be
