Here she is — your Vintage Cafe cover, alive. The cup at her lips, the café gold, the daisies, the doves, her green stare. This is the exact clip you pointed at, delivered landscape and kept just as the artwork frames it. It's yours to keep and share around. One honest note, because you told me the green eyes were the thing to protect: on this take her eyes drift toward a warmer tone partway through the loop — you've looked at it and love it as it is, so it ships exactly as you saw it. Enjoy her.
