

Start here

Here's your video, Hicham — "Wake Me Up," your own song turned into a sunrise road-trip film. One driver we follow over the shoulder, silhouette against the sun, the whole drive building from pre-dawn gray to full gold when the road opens up, cut to your song's own pulse and landing on that warm gold fade you called. Play it loud — it's the kind of thing that makes you want to grab your keys.

What is in the kit

1 **Wake Me Up — the music video** (open this first)

`film/wake-me-up.mp4`

Plays in any video player (QuickTime, VLC, or a browser).

Your sunrise drive, cut to your own song — over-the-shoulder, silhouette against the sun, building from pre-dawn gray to full gold. Play it loud.
