

Estate Walkthrough

What's inside, and what to open first:

1. **A Contemporary Estate — the design book** ([1 · A Contemporary Estate - the design book.pdf](#)): Open this first. Your house, designed and told the way you'd walk it — thirteen spreads, the plan drawn to scale, every material named. The keepsake volume of the whole design.

Filed under Extras (reference and supporting material):

- **The floor plans — drawn to scale (6 sheets)** ([Extras/The floor plans - drawn to scale \(6 sheets\).pdf](#)): The full architectural set: site & roof plan, both levels, drawn to scale. Hand these to an architect when you're ready to build.
- **The walk, in words — room by room** ([Extras/The walk, in words - room by room.pdf](#)): The plain-words tour of the house you blessed, room by room in the order you'd move through it.
- **Arrival — the approach under the oak** ([Extras/Arrival - the approach under the oak.jpg](#))
- **Threshold — the low passage & first ridgeline** ([Extras/Threshold - the low passage & first ridgeline.jpg](#))
- **The great room — the reveal** ([Extras/The great room - the reveal.jpg](#))
- **Kitchen & dining** ([Extras/Kitchen & dining.jpg](#))
