

SEVEN-VEGETABLE COUSCOUS

Start here

Two couscous cards from one kitchen, Hicham — the chicken version you just asked for, and the original beef beside it. The chicken card is the one to open first; the beef stays in the box.

What is in the kit

1 **Seven-Vegetable Beef Couscous — the recipe card**

recipe/couscous-card.pdf

Opens in any PDF reader (Preview, Acrobat, or a browser).

The whole recipe, English and Spanish side by side. Hand this to your cook and they follow it top to bottom — no couscous knowledge needed.

2 **Seven-Vegetable Chicken Couscous — the recipe card** (open this first)

recipe/couscous-chicken-card.pdf

Opens in any PDF reader (Preview, Acrobat, or a browser).

The chicken version, English, ready to hand to your cook — bone-in for the broth, the seven Southlake vegetables, the couscous steamed over a colander. Follow it top to bottom.

Its address on the internet

It is live at

<https://kaldune.ai/publish/seven-vegetable-couscous>

The page follows every delivery on its own: anyone holding the address sees the newest version.

Everything here also arrives as one file, **seven-vegetable-couscous.zip**; inside it is the folder **Seven-Vegetable Couscous**.

What you may do with this work: **Your rights** (Your rights.pdf).

Every file here carries its origin record: a .provenance.json twin beside it, and the PROVENANCE page lists every file with its fingerprint.

Your studio: <https://kaldune.ai>. Open the brief there to ask for changes; a new delivery updates this page and the kit.
